1 Some Terminology

There is none!

2 Some optimization problems

$$\begin{aligned} \min_{y \in Y, u \in U} & J(y, u) \\ \text{s.t.} & F(y, u) = 0, \\ & c(y, u) = 0, \\ & h(y, u) \geq 0 \end{aligned} \tag{1}$$

Above, you can see a minimization problem! We can refer to Glossary Entry for some clues as to what this means. We can also cite how we learned about this optimization problem! [Doe91]

Glossary

Glossary Entry Glossary entries are used to provide definitions for words in your document. 1
