Introduction

This template is designed with the official [logo](#) and [color palette](#) of the University of North Carolina at Charlotte.

It is a modified version of the UC Berkeley Beamer Theme, which can be found [here](#).

Some Features

Multiple columns can be utilized as needed.

Important words can be highlighted, **bolded**, *italicized*, or ***any combination of the three*** within the text.

Some Features, Cont.

Blocks are useful for bringing attention to important definitions, theorems, or other main points:

Making Lists

1. Use `enumerate` for numbered lists.
 - Use `itemize` for bullet points
- ! See other options for lists [here](#).

Some Features, Cont.

Use `alert<+- | alert@+>` to add to a single slide, highlighting as you go.

Some Features, Cont.

Use `alert<+- | alert@+>` to add to a single slide, highlighting as you go.

- This is the first important point.

Some Features, Cont.

Use `alert<+-` | `alert@+>` to add to a single slide, highlighting as you go.

- This is the first important point.
- This is the second important point.

Some Features, Cont.

Use `alert<+-` | `alert@+>` to add to a single slide, highlighting as you go.

- This is the first important point.
- This is the second important point.
- This is the final important point.

Mathematical Notation

- Equations can appear in line with the text, $x^2 + y^2 = z^2$.
- Or with display math mode, equations can also be set apart:

$$f(x) = \frac{1}{\sigma\sqrt{2\pi}} \exp\left(-\frac{1}{2}\left(\frac{x-\mu}{\sigma}\right)^2\right)$$

A Sample Table

This is how a basic table will appear in this template using tabular:

	Item1	Item2	Item3
Row1	1	2	3
Row2	4	5	6
Row3	7	8	9

Table 1: A sample table.

A Sample Figure

To insert figures, upload the image to the file tree and use `includegraphics`:

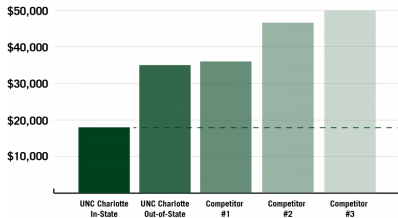

Figure 1: A sample figure (original source [here](#)).
